### Document Body

Joe,

I'm nearing the end of the process of writing the report for the April 3rd inspection. I would like to receive electronically if you have it (1) the wastewater summary reports for Your flume to the JCO for the past 12 months, (2) any toxics data for your flume to the JCO in 2008, and (3) a few odds and ends.

In particular, I'm looking for:

The last 12 months of influent concentrations for TSS, total nitrogen, total phosphorus, BOD, and oil & grease.

The last 12 months of effluent concentrations and loadings for TSS, total nitrogen, total phosphorus, BOD, and oil & grease.

The last 12 months of effluent measurements for pH, temperature, and flowrate.

The 2008 effluent concentrations for ammonia, mercury, copper, and zinc.  
The 2008 effluent loadings for ammonia.  
The 2008 influent loadings for ammonia.  
Estimated average flow rate of fresh water provided by ASPA.  
Estimated average volume disposed through the Blue Moon.

Thanks. I appreciate it.  
Talk to you soon.

Greg V. Arthur
